

## **About Us**

United Arab Cargo & Service Company was established in 2004. It is one of the largest companies in customs clearance, transportation, and shipping between Arab countries, as it owns a fleet of trailers that operate in all ports (sea, air, land). We provide the best services and prices to customers.

## **Certificate**

- We obtained ISO 9001 2015 certificate
- We obtained ICV Scorecard certificate
- We obtained a certificate of appreciation from Qatar Customs.

## **Our service**

We, United Arab Cargo & Service Company, meet the needs of companies and individuals alike, thanks to our years of experience in customs clearance, land, sea, and air freight. We are proud to provide the best services and prices.

## **Land Freight**

We transport goods and products from the point of departure to their final destination via land routes, using our trucks. Land freight is a popular choice for transporting goods due to its flexibility and ability to reach multiple locations within Qatar or GCC countries.

### **Land freight process steps:**

#### ***1- Planning and preparing the shipment:***

- Determine the type of goods and their requirements (such as packaging and protection).
- Choose the most appropriate means of transportation according to the size and weight of the shipment.

#### ***2- Loading and insurance:***

- The goods are loaded carefully to avoid damage during transportation.
- Securing the load according to safety standards.

#### ***3- Road transport:***

- The truck begins the journey on a pre-determined route to reach the desired destination.
- This may include crossing an international border and completing customs procedures.

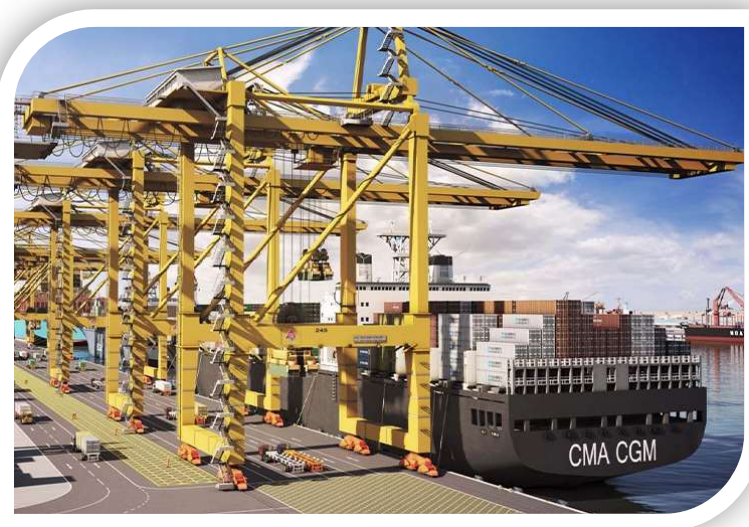

#### ***4- Unloading and delivery***

- The goods are unloaded and delivered to the final recipient at the specified location.

## Sea Freight

We have shipping agents worldwide where we ship goods and products using commercial ships. This type of shipping is the most common option for transporting heavy and large goods over long distances between countries and continents, due to its economic cost and high capacity.

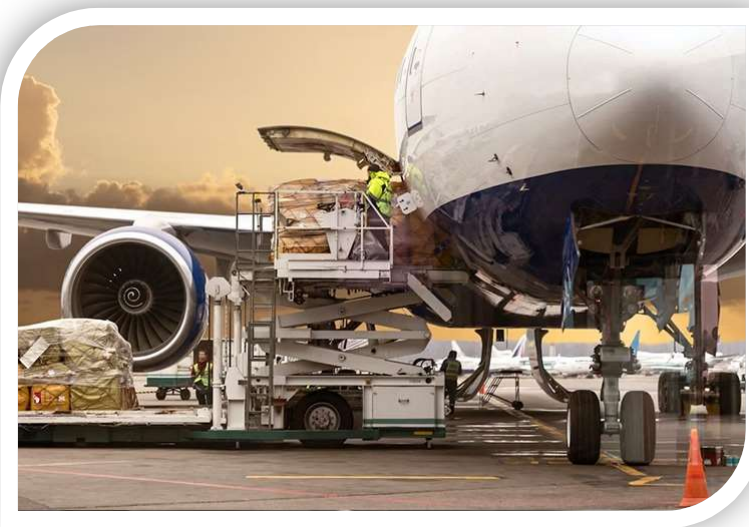

### *Types of sea shipping:*

1. Containers ( 20ft & 40HQ): used to pack normal goods.
2. Bulk shipping: Transport of raw materials such as grains and oils.
3. Refrigerated Containers: Transport Goods that require low temperatures to be preserved.
4. Roro shipping: Transport of equipment or goods with large dimensions.

## Air Freight

We carry out air freight as a means of transporting goods and products via aircraft, and it is the fastest option compared to other means of shipping such as sea or land freight. This type of shipping is used to transport high-priority, perishable, or high-value goods that need to be delivered quickly.

### *Advantages of air freight:*

- Speed: The fastest way to transport goods over long distances.
- Safety: Shipments are handled with special care, reducing the risk of damage or loss.
- Reliability: Flight schedules are strictly scheduled, ensuring delivery on time.

## **Customs Clearance**

We have a full customs clearance team working 24 hours a day, completing all customs procedures for importing or exporting goods across all borders. This includes submitting documents, paying customs duties, and ensuring compliance with customs laws in the State of Qatar.

### **Customs clearance steps:**

#### **1- Prepare the necessary documents:**

- Commercial Invoice.
- Certificate of Origin.
- Packing List.
- Bill of Lading or Airway Bill.
- Any additional documents such as special permits for the goods (if required).

#### **2- Submit the customs declaration:**

- A customs declaration application containing the shipment details is submitted to customs.
- Determine the appropriate customs tariff (HS Code) to classify the goods.

#### **3- Customs duties:**

- Determine customs duties based on the value and type of goods.
- Pay the fees through the customs website <https://www.ecustoms.gov.qa>

#### **4- Complete the procedures and deliver the goods:**

- After meeting all requirements and paying the fees, the shipment is released.
- Delivering goods to the customer via our company's transport vehicles.

## **Company profile conclusion**

*In conclusion of this profile, we confirm our commitment at United Arab Cargo & Services. to achieving the highest levels of quality and excellence in all our services. We always strive to build long-term partnerships with our customers and shareholders, based on trust, credibility, and innovation.*

*We are proud of what we have achieved so far, and we look forward to a bright future full of shared successes with you. Thank you for your interest in our company, and we hope to be the first choice that meets your needs and fulfills your aspirations.*

*For any additional inquiries or potential cooperation, do not hesitate to contact us*
